DataRobot

SUCCESS STORY AT A GLANCE

Citi Ventures Invests in
DataRobot for Pioneering Automated ML

Citi Ventures, the innovation arm of Citibank, saw DataRobot as the clear leader in the market for empowering data scientists and business users to realize dramatic time-savings in the modeling process — and ultimately focus their talents on solving complex business problems.

Citi Ventures invested in DataRobot because they created this category of automated ML. DataRobot was the first to understand this phenomenon that the world needs data science, but not everybody's trained as a data scientist. This is a huge differentiator in the market."
